- प्रेरक प्रसंगों द्वारा बच्चों में कला के प्रति रुझान, सांस्कृतिक धरोहर का संरक्षण एवं गौरव मानवीय मूल्यों का श्रम के प्रति आस्था तथा कर्तव्य निष्ठा का विकास करना है।

MATHEMATICS

- To cultivate in students proficiency in mathematical computations and calculations.
- To develop in students a scientific attitude to analyse any situation logically.
- To develop the ability of presenting a thought with exactness and brevity in students.
- To empower students to confidently present arguments based on logical reasoning.
- To help the students to appreciate the geometrical and symmetrical shapes of the natural objects.

SCIENCE

- To update the learners with new and amazing facts that will add on to their knowledge and reasoning power.
- To boost connectivity with real life situations, as students answer questions based on routine scientific observations made by them.
- To help students study the explorative, innovative and creative aspects of science and be inspired to create and innovate.
- To offer students training in scientific method and help them develop a scientific attitude and aptitude.

SOCIAL STUDIES (HISTORY, CIVICS & GEOGRAPHY)

- To enable the students to develop an understanding of the cultural heritage of India.
- To help students grow into an enlightened and responsible citizen and provide an understanding of the government.
- To make students aware of contemporary economic and political problems of a nation.
- To provide a better understanding of the world in accordance with all geographical data.
- To equip students with the necessary knowledge on historical facts and geographical data and skills to navigate a multicultural society responsibly.

COMPUTER STUDIES

- To enable the students to comprehend the concepts and practices of computer studies.
- To develop in students the ability to apply the fundamental concepts of programming.
- To create in students an awareness of ethical issues related to computing.
- To help students acquire knowledge on theoretical concepts, application and programming aspects of computer studies.
- To provide students a detailed insight into how technology impacts our lives and expose them to the digital age rising and the ability to innovate.

VALUE EDUCATION

- To enable the students to develop good habits, manners and etiquette in school and at home.
- To enable the learners to apply the values taught in each chapter in their day-to-day life.
- To provide motivational quotes and encourage students to have a positive attitude in students for their personal growth.
- To help students appreciate the beauty of creation and its creator THE ALMIGHTY.
- To bring out human excellence in students at all levels – academic and personal – leading them to self-confidence and self-motivation.
